ABSTRACT

Designed for counselors, advisers, and two-year college students planning to transfer to a four-year institution, this report presents the transfer policies of the 46 senior colleges and universities in North Carolina for 1983-84. Following introductory material about the purposes and development of the report, the report enumerates the policies of each of the 46 senior institutions with respect to the admission of and granting of credit to transfer students. This section includes questions and answers on admissions policy, the transfer of credit, housing, costs, financial aid, course repetitions, grading policy, transfer of credit by alternative means, transferability of courses from technical institutes and proprietary schools, general education requirements, and transfer agreements by program. Appendices include sample transfer agreements, general education requirements for transfers, and undergraduate transfer data, including information on: (1) flow of undergraduate transfers among North Carolina colleges and universities, fall 1982; (2) undergraduate transfers to North Carolina colleges and universities, fall 1972 to fall 1982; (3) undergraduate transfer students by sex at North Carolina colleges and universities by type of institution, fall 1982; (4) fall 1982 regular, lateral, and reverse transfers; (5) out-of-state transfers, fall 1982; and (6) transfers into non-college parallel programs at two-year colleges. Dear Academic Advisor and Student:

As part of its legal responsiblity to provide information and assistance to students interested in transfer admissions, The University of North Carolina publishes, at the request of the Joint Committee on College Transfer Students, this compilation of the *Policies of Senior Colleges and Universities Concerning Transfer Students From Two-Year Colleges in North Carolina, 1983-1984*. The document provides academic advisors and potential transfer students with information about admission and transfer of credits. It helps students choose institutions and design programs of study which meet graduation requirements of receiving institutions. Such planning minimizes unnecessary loss of credit and time in the transfer process.

This publication represents but one of several important contributions of the Joint Committee on College Transfer Students. Others include the development and distribution of *Guidelines for Transfer*, the coordination in North Carolina of the American Council on Education's Program on Noncollegiate Sponsored Instruction, and provision of an ongoing forum for the discussion and alleviation of articulation problems.

The work of the Joint Committee contributes to the maintenance of needed institutional autonomy in determining admissions and academic policies while at the same time facilitating the dissemination of helpful information on the admission of and the granting of credit to transfer students. The University of North Carolina cooperates in this important endeavor by providing the secretariat for the Joint Committee and publishing its reference advisory books.

Cordially,

William Friday

PREFACE

This is the seventh edition of the *Policies of Senior Colleges and Universities Concerning Transfer Students From Two-Year Colleges in North Carolina*, prepared under the aegis of the Joint Committee on College Transfer Students and published at the request of the committee by The University of North Carolina General Administration.

The publication serves primarily as a reference for advisors, counselors, and others in the guidance of students at two-year institutions who plan to transfer to senior colleges and universities in North Carolina. It enumerates the policies of each of the forty-six senior institutions on the admission of and the granting of credit to transfer students. The compilation spares an individual needing such information the time and effort which otherwise would be required for him or her to obtain and leaf through catalogs of the various institutions. Even then the information may not be found since most catalogs contain less information about transfer policies than this publication.

The admissions officers of the senior institutions provided the statements of policies concerning transfer students at their respective institutions. No attempt was made to edit their responses except for format consistency. In fact, whenever possible their exact wording was used. The statements of policies, applicable to the current academic year, appear by institution in alphabetical order.

Information was gathered and compiled by an editorial subcommittee, consisting of the following:

John F. Corey (Chairman), Associate Vice President for Student Services and Special Programs, The University of North Carolina, General Administration, Chapel Hill

Bobby L. Anderson, Director, Academic and Special Programs, Department of Community Colleges, State Board of Community Colleges, Raleigh

Carolyn J. Bishop, Assistant Director, Undergraduate Admissions, The University of North Carolina at Chapel Hill, Chapel Hill

Gerald W. Bray, Dean of Administrative Services, College of The Albemarle, Elizabeth City

B. Franklin Lowe, Jr., Dean of the College, Chowan College, Murfreesboro

Special thanks go to the editorial subcommittee for its work. Likewise, gratitude is due Dr. Corey's secretary, Carole Ogan, who assisted the subcommittee in preparing the manuscript for publication.

Suggestions for increasing its value will be welcomed and appreciated.

34. What student financial aid programs are available? *Work program, scholarships, institutional, Federal and State grants, institutional loans and summer and vacation work on campus. We also offer a $500 scholarship to associate degree holders with a 3.0 or better grade point average.*

OTHER

35. General education requirements for graduation with a baccalaureate degree are as follows:

Every student must obtain four semester hours of credit in *each one* of ten different core categories, each of which offers a wide range of choices for the student. In addition, the student must establish competency in writing (which may or may not require course work). Core requirements thus take a minimum of 40 hours of course work, or roughly one-third of each student's four-year program. The core requirements are outlined as follows:

A. Introductory requirements
   Writing competency
   1. Freshman Seminar (4 credit hours)

B. Processes in Gaining Objective Knowledge
   Symbolism
   2. Verbal symbols (4 credit hours)
   3. Non-verbal symbols (4 credit hours)
   Empiricism
   4. Natural sciences (4 credit hours)
   5. Social sciences (4 credit hours)

C. Processes in Gaining Subjective Awareness & Knowledge
   6. Personal knowledge (4 credit hours)
   7. Religious knowledge (4 credit hours)
   8. Intercultural awareness (4 credit hours)
   9. Aesthetic knowledge (4 credit hours)

D. Processes in Gaining Synoptic Knowledge
   10. Synoptic processes (4 credit hours)

Total: 40 credit hours (minimum). Note: Four semester hours credit would be equivalent to one 8-week course under the modular calendar.

The three broad "process" categories—objective, subjective, and synoptic learning—represent three standpoints for viewing the subject matter generally associated with the liberal arts. Along with writing competency, they and their sub-categories represent a particular perspective from which "meanings" have traditionally been explored. They comprise the broad range of academic venture that has normally been considered the substance of a general studies curriculum. Each category may contain courses from many different areas: English, history, education, physics, religion, etc. But here, our approach will focus on the *process* of discovery, the ways that we inquire.

36. What transfer agreements exist with other institutions for specific programs?
